

THE NEW CONCEPT OF AEROBATIC TRAINER JET  
FULL ITALY MADE  
**QUICK MANUAL FOR STENCILS  
APPLICATION**

Version 1.0

Select the correct stencils

Wet the surface with a mix of water and liquid soap

Wet a under side of Stencil ( Adhesive side )

Apply on the wet surface and move in the correct position

With a plastic spatula put outside the bubble air and water

Dry the surface with a soft tissue

Cut, with a very sharp blade, the separation between the fix and mobile parts.

P.S.: for the logos apply ( dry ) the tape for covering the full surface and transfer the complete picture on the correct position on surface and after a gentle pressure with the plastic spatula, remove the tape.
